

Skills Training Class Opening Ceremony

Kaohsiung Drug Abuser Treatment Center held the opening ceremony of the second skills training class term for 2022 on July 20th, and jointly established the bakery class with the "Kaohsiung-Pingtung-Penghu-Taitung Regional Branch of Workforce Development Agency of Ministry of Labor," while continuing to organize electric welding classes. The Center continues to hold skills training classes to enable the inmates to acquire skills, cultivate correct professional and vocational values, develop hard-working habits, enhance self-affirmation and sense of self-achievement, and allow them to more easily find jobs or start their own businesses after completing treatment.

The Center's skills training classes feature professional and experienced teachers and provide the latest job opportunities and vacancies for the inmates regularly, so as to allow the inmates to adapt to rapid changes in the current industrial framework and manpower needs in advance, and thereby enhancing their competitiveness in terms of employment.

At the opening ceremony today, the Director of the Center gave a speech to encourage the trainees. In addition to providing training and learning of work skills, vocational training also provides a simulated workplace. Trainees are required to start with daily routines, gradually build adequate and proper working attitudes and skills, fully prepare themselves before employment, and move on to a new life journey.

The Director of the Center encouraged the trainees to have correct attitude towards skills training and job-seeking during his speech at the ceremony
